## Good Design with advanced functions

Inn-Tact Model is a new model with good selling in oversea markets. Upgraded with mainboard with new functions make it both modern and advanced.

## Multi-Touch

Leading infrared sensing positioning technology, support multi-person writing at same time, support writing by your fingers or any opaque object, Intelligent gesture recognition, can meet various meeting demands.

## All-in-One Design

Six functions in one, integrate functions of projector, interactive board, computer, kiosk and audio but better user experience. It is an ideal solution for business presentation or schools.

## UHD 4K Resolution

4K picture quality, more delicate. High-precision UHD picture for visual enjoyment. Support mobile wireless control, built-in annotation applications and other software.

## Dual System Supporting

Support Android and Windows dual system, each system can be operated and managed separately, elegant simplified UI interface for Android, can select the required functions quickly, configured with DrawView X annotation software, can quickly write down handwriting with real writing feeling.

## Annotation

The built-in Android Annotation software can mark notes or contents on the Android interface or on any opened files on the Windows system. You can highlight or mark over the documents or video no matter in Android or windows system.
